

# ANKIT KUMAR

Aspiring Data Analyst

Chandigarh, India | 14ankitkumar14@gmail.com | +91 7986050683 |  

## PROFESSIONAL SUMMARY

Detail-oriented and analytically driven Computer Science graduate with hands-on experience in Python, SQL, Power BI, and Excel through academic projects. Skilled in data cleaning, exploratory data analysis, dashboard development, and translating raw data into actionable business insights. Seeking an entry-level Data Analyst role to apply strong analytical, visualization, and problem-solving skills in a professional environment.

## EDUCATION

Bachelor of Engineering (B.E.) in Computer Science

Chandigarh University | 2022 – 2026 | CGPA: 6.84

## TECHNICAL SKILLS

Programming & Querying: Python, SQL, MySQL, PostgreSQL, Microsoft SQL Server, Google BigQuery

Data Analysis Libraries: Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook

BI & Visualization Tools: Power BI, Tableau, DAX, Power Query, Dashboard Development, KPI Reporting

Excel: Advanced Excel, Pivot Tables, XLOOKUP, VLOOKUP, Power Pivot

Core Competencies: Data Cleaning, Data Wrangling, EDA, Statistical Analysis, Data Modelling, ETL, Data Storytelling, Root Cause Analysis, Trend Analysis, Predictive Analytics, A/B Testing

Tools: Git, GitHub

## PROJECTS

Customer Shopping Behaviour Analysis | Python, SQL, Power BI, Excel

- Analyzed retail customer transaction data to identify purchasing patterns, customer segmentation, and seasonal sales trends.
- Developed an interactive Power BI dashboard with KPIs and dynamic visualizations for real-time business insights.
- Generated actionable recommendations for marketing campaigns, inventory optimization, and customer retention using data-driven analysis.

Credit Card Financial Dashboard | Power BI, SQL, Excel, DAX

- Built an interactive Power BI dashboard to analyze credit card transactions, customer behavior, and financial KPIs.
- Developed SQL queries, Power Query transformations, and DAX measures to create dynamic reports and business metrics.
- Identified revenue trends, top-performing customer segments, card category performance, and regional insights to support data-driven decision-making.

## CERTIFICATIONS

- Introduction to Data Analysis Using Python — Google
- SQL: A Practical Introduction for Querying Databases — IBM (Coursera)
- Cloud Computing — Elite + Silver, NPTEL (IIT Kharagpur)

## ACTIVITIES & EXTRACURRICULAR INVOLVEMENT

- Built a personal Power BI dashboard tracking college placement statistics, shared with peers for interview preparation insights.
- Active member, Data Science & Analytics Club — led peer workshops on Excel dashboards and SQL query optimization.
- Presented data-backed strategy recommendations using Power BI in an inter-college business case study competition.
- Regularly practice EDA and dashboard storytelling on Kaggle datasets to build real-world BI and KPI reporting skills.
